A Message From Rev. Roni:

Have you ever wondered about miracles? What are they? How do miracles work? Why it is some people experience physical healing? And others do not? Why does healing take such a long time? One famous preacher says that there is no magic formula: two parts prayer, three parts faith and one part good works. Getting a miracle is not like those strength tests you see at a country fair, where our chances of winning the prize is directly correlated with the measure of your strength.

Miracles are God's action. Miracles are quite diverse and it is too simplistic and presumptuous to believe that you will always get what you want. We don't have control over miracles. Our faith in God helps us to accept the miracle in whatever form we receive it. I believe that we don't always get the miracle we want. We get the miracle we need. Our role is to trust God. Trust God's outcome.

**Donations to The United Church Healing Fund
for Residential School Survivors and their Indigenous Communities.**

To begin to redress some of the harms, many United Churches across the country are choosing to ask their congregations for donations to the United Church of Canada's 'Healing Fund' in memory of the many children recovered from the unmarked burials. We are hoping to raise at least \$215.

Your donation to Mission and Service makes the Healing Fund possible. At this time, if you wish to make a special donation, you may ask that it be directed to the Healing Fund.
